

Wireless Internet Access

We are proud to offer FREE WiFi Internet to all of our guests. This value-added service gives our guests one more way to keep pace with “life” while enjoying a relaxing dining experience.

Details:

If you have a WiFi-enabled laptop or PDA, you can access the Internet for FREE. You must have an 802.11 (WiFi) card installed and configured on you computer. WiFi cards are available at many computer and/or office supply stores.

**Use the SSID: COLONIALCAFE
Get IP address automatically (DHCP)**

Colonial Cafe considers the following services to be secure:

- **SSL-based Websites (using 128-bit SSL Encryption)**
- **Secure Shell (SSH)**
- **With all other services available you should assume that someone can intercept the contents. These services include:**
 - **Non SSL-based Websites**
 - **Web-based forms**
 - **Email (via POP or SMTP)**
 - **Instant Messaging**

Confirm that file sharing is NOT active. If this feature is active, other users on the network may be able to access you files.

Wireless transmissions, by nature, can be intercepted very easily. It is the responsibility of Colonial Cafe guests to ensure data is kept secure and that secure protocols are used for any sensitive material.

Colonial Cafe and Ice Cream takes no responsibility for any information that is compromised by the use of its network.
